Please indicate any areas that you feel you would like to help with. This will enable us to assess how to spread the tasks across the volunteers. We will arrange times and dates with you later. If there are areas that interest you, that we haven't specified, add them in. Remember that it can be as little or as much of your time. No offer will be refused, every experience will be valued, no-one will be over-worked and any training will be made available. It is your shop, so you are what will make it work.
